PERFECT BINDER

BM500SF

- **Easy to use and user freindly**
One touch operation
The touch buttons on the front control panel operate all functions of the machines except the paper size guides
- **New high speed technology**
A new high speed technology using hot melt glue has replaced the milling process which enables the BM500 to make a maximum of 200 books an hour
- **No trimming work**
The BM500 has a unique jogger and automatic cutting mechanism for the book cover.
The cover is cut to the exact book size so no trimming is necessary
- **Compact style**
- **Fits all office environments**
